

maintenance pumps & valves

2nd International Exhibition of Industrial Maintenance and the Industrial Fluids and Gases Process in Algeria

5 - 7 December 2021 | Algiers Exhibition Center (SAFEX)

THE EXHIBITION'S PROFILE

Maintenance Pumps & Valves is the only 100% international trade fair B2B in Algeria which brings together all the actors of maintenance and all suppliers of products and services dedicated to pumps, valves, and fluid process.

Figures from Last edition (2019) :

+ 50
exhibitors

+ 2300
unique
visitors

+ 3
countries

+ 20
conferences

+ 150
international
brands
represented

EXHIBITORS PROFILE

1. Industrial maintenance

- Maintenance of electronic devices
- Machine maintenance
- Measurement and control techniques, diagnostics
- Maintenance equipment and spare parts
- Lubricants, oils and greases
- Surface treatment, protection against corrosion
- Industrial cleaning
- Welding technology
- Condition monitoring

2. Technical planning, advice and services

- Process optimization
- Management of closures
- Contracts and cost definition
- Quality Control
- Mechanical industry Electrical engineering
- RCM - reliability-oriented maintenance
- TPM - Total production
- Maintenance management
- RBI - RBM - Risk based solution management
- Security of installations
- Preventive maintenance

3. Software solutions

- CMMS - Computerization of management systems
- maintenance
- EAM - Enterprise Asset Management software

4. Portfolio management & on-site services

- Inspection of machines and / or lines
- production
- Construction of facilities
- installation management
- Real property administration
- Real property administration

5. Facility management

- Energy control and optimization
- Technical building management
- Facilities management
- Waste management and optimization

6. Protection at work, safety & health

- Security management
- Protection at work
- personal protective equipment
- Safety at work
- Fire protection
- Signs, symbols, inscriptions

7. Environmental services

- Environmental advice
- (Energy and waste management)
- Sound protection technologies
- Compressed air techniques and refrigeration
- Heating techniques
- Storage of hazardous products
- Pest control

8. Human resources & knowledge management

- Career and continuing education
- Coaching and training

9. Maintenance of propulsion techniques

- Mechanical and electrical propulsion techniques
- Sensors
- Tires
- Hydraulic
- Vacuum techniques
- Switches Connectors
- Cables and cable technologies

10. Management & regulation techniques

- HMI systems
- Industry PC control and monitoring
- PLC management, free programmable management
- Monitoring techniques and recording of data
- Software
- Field bus technology
- Positioning system
- Production program planning

11. Assembly & handling techniques

- Placement machines
- Handling

12. Technical planning & assembly

- Technical planning and assembly

13. Control systems for transmissions

- Industrial automation
- Linear guidance systems
- Linear motors Servomotors
- Soft starters
- Stepper motors
- Manual gearboxes
- Frequency control
- Shock absorbers
- Mechatronics robotics

14. Pumps & Valves

- Drive technology for pumps and valves
- Seals
- Services
- Industrial pumps
- Pipelines
- Test, measurement and control technology for pumps and valves
- Valves
- Accessories for process equipment

INDUSTRY SECTOR

- Waste treatment
- Metal industry
- Wastewater treatment
- Medical engineering
- Gas Oil sector
- Furniture industry
- Electrical engineering and electronics industry
- Pharmaceutical industry
- Energy industry
- Tobacco industry
- Automobile construction
- Textile industry
- Wood treatment
- Transport and infrastructure
- Engineering services
- Water supply
- Plastic industry
- Subcontracting industry
- Food industry
- Machine, appliance, and systems Construction.

We create dialogue

Transfer from knowledge and meeting point, a real essential to Algerian industry

We provide you added value

Experts will come to present new discoveries of the sector during different conferences in our Conference Room

We connect sectors

With his 12 years of experience in Europe, the trade show maintenance Algeria will have real experts in charge of his organization
